

**June 22-23, 2017
Toronto, Canada**

Dear Colleague,

We would like to invite you to the Canadian Breast Cancer Symposium 2017. This event has been tremendously successful in engaging leaders from around the country, generating national interest in the field of breast cancer and highlighting the significant advances being made in this field. Our next event will take place on June 22-23, 2017 at Hilton Toronto Hotel 145 Richmond Street W, Toronto Canada .

This two-day symposium is designed to highlight the current management of breast cancer. The symposium attract many national and international specialists including medical, radiation, and surgical oncologists, radiologists, pathologists, epidemiologists as well as basic scientists, family physicians, investigators, pharmacists, nurses and others with an interest in the current treatment of breast cancer. In 2015, we had a tremendously successful symposium with more than 300 attendees. We look forward to building on the success of this symposium and expect an even greater number of attendees in 2017. We would like to invite you to be part of this meeting by considering participation in our supporter program (please see details below). We would also be pleased to discuss any other additional support options with you.

Sunil Verma, MD

Jaime Escallon, MD
