

Dear Colleague,

We are excited to introduce you to the Canadian Breast Cancer Symposium 2021 and are requesting your generous sponsorship to make this symposium a possibility. This event has been tremendously successful in previous years in engaging leaders from around the country, generating national interest in the field of breast cancer and highlighting the significant advances being made.

This year we will be hosting a one-day digital symposium that will be designed to highlight the current management of breast cancer. The symposium attracts many national and international specialists, including medical, radiation, and surgical oncologists, radiologists, pathologists, epidemiologists, basic scientists, family physicians, investigators, pharmacists, and nurses interested in the current treatment of breast cancer.

In 2019, we had a tremendously successful symposium with more than 200 attendees. We look forward to building on this symposium's success and welcome you to join us in a successful 2021 symposium. We would also be pleased to discuss any other additional support options with you.

Sincerely,
Conference Chair(s)

Christine Brezden-Masley MD PhD FRCPC
Medical Oncologist, Mount Sinai Hospital
Medical Director, Cancer Program for Sinai Health
Director, Marvella Koffler Breast Centre, Mount Sinai Hospital
Senior Clinical Scientist, Lunenfeld-Tanenbaum Research Institute at Mount Sinai Hospital
